Introduction

CloudBlue Connect® supports the latest version of the OpenAPI 3.0 (OAS3) specification.

The OpenAPI specification is a widely adopted standard for documenting APIs. OpenAPI 3.0 is the latest version of the OpenAPI specification and offers a number of improvements over previous versions of the standard.

Support for this specification allows our customers to improve API development and provides better compatibility with the API ecosystem, like REST Clients and other tools.

Specification

The following specification provides the full list of API methods that are made available by Connect to its customers.

Connect Swagger
