# Mulesoft Extension

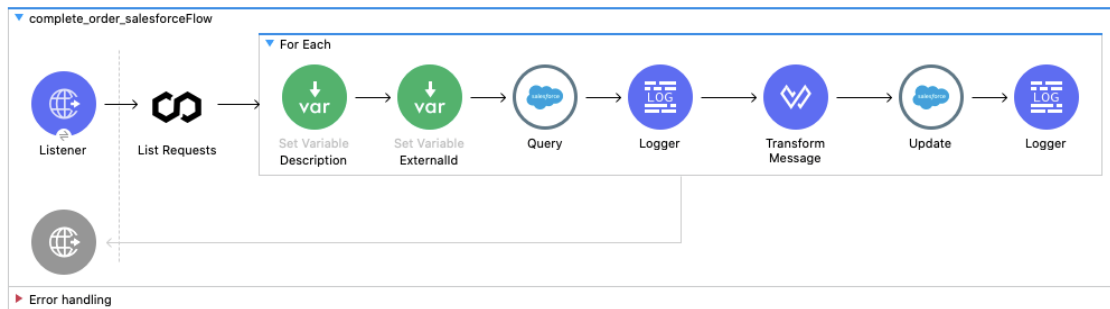

This article has been generated from the online version of the documentation and might be out of date. Please, make sure to always refer to the online version of the documentation for the up-to-date information.

Auto-generated at December 6, 2021

## Introduction

The Connect Mulesoft Extension (also called *CloudBlue Connect Connector* in the Mulesoft ecosystem) enables Vendors, Distributors and Resellers to seamlessly integrate their fulfillment processes into the internal or line-of-business systems.

Therefore, by using this Connector you can build a Mulesoft Application to link, transform and deliver required data between the Connect portal and your selected platform.

## Functionality

Refer to Operations List to get a list of all available Connector operations.

## More Information

The following articles introduce the Mulesoft platform, describes two methods to build your integration via Mulesoft solutions, showcases how to integrate the Salesforce platform with Connect via Mulesoft:

1. Mulesoft Overview
2. List of Operations
3. Integration Concept
4. Connector for Anypoint Studio
5. Application Life Cycle in Anypoint Studio
6. Connector for Data Center
7. Application Life Cycle in Design Center
8. Salesforce Integration using Mulesoft
