Release Date: **March 11, 2019**

Usage-based support

- Connect now supports vendors' pay-per-use, usage-based, and similar pricing models through easy usage-file upload.
- Usage files can now be uploaded in the brand new Usage Module.

Multi-tier parameterization support:

- Vendors can now request for additional details at Tier 1 and Tier 2 reseller levels to reduce information required for every order.
- Reseller control panel of Odin Automation integration to support multi-tier parameterization.

Webhook fulfillment notifications

- Connect now supports real-time push-based triggers for instant fulfillment queue notification and faster provisioning.
- Webhooks can be created in the API module.

New Python SDK

- See our CloudBlue GitHub for details

Brand New Dashboard screen

- Introduction of a brand new dashboard for easy access to all available Connect modules to the account

Other stability and functionality improvements
