Release Date: **May 8, 2026**

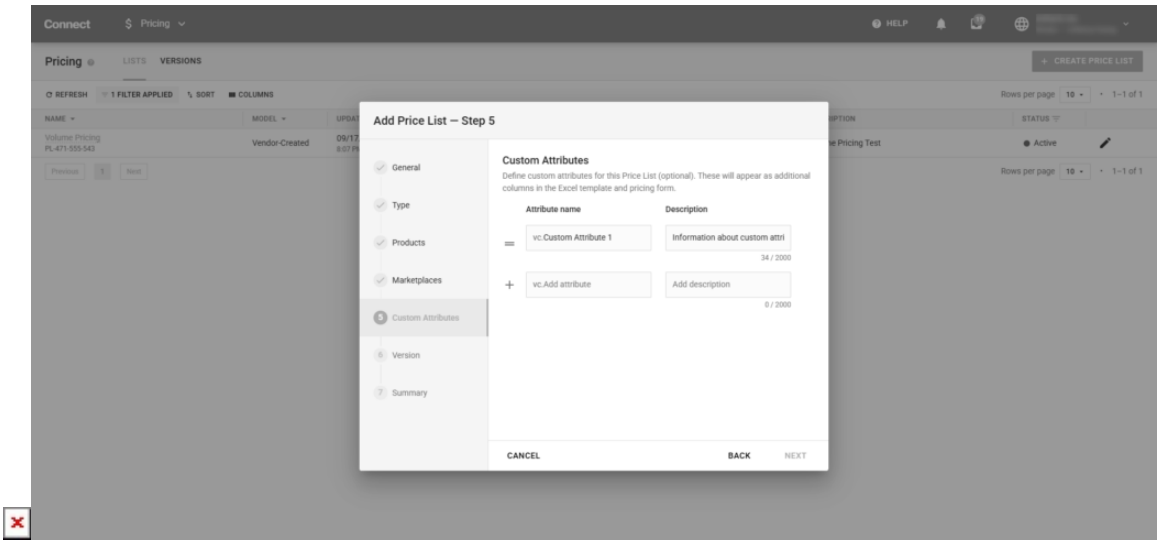

This release brings new and enhanced features, better scalability, smoother workflows, and a richer user experience on Connect.

1. CloudBlue Connect® Platform

1.1 Vendor Pricing Custom Attributes

CloudBlue is pleased to announce that Vendors can now create **custom attributes** within Connect Price Lists. This enhancement empowers Vendors to define and manage granular pricing metadata for individual items, facilitating the seamless communication of specific details such as pricing rate tiers and discount eligibility.

Learn more about the Vendor Pricing Custom Attributes here.

1.2 Static fixed IP for all outgoing traffic within EaaS

CloudBlue Connect® now provides a **static IP** for all outbound traffic originating from our Extensions-as-a-Service (EaaS) functionality. This update enables platform partners to implement and enforce industry-leading security standards — such as IP whitelisting, source verification, and rigorous auditing— ensuring every integration is secure, predictable, and fully compliant.

1.3 Performance & Security Updates

We have enhanced multiple aspects of our platform to boost performance, optimize operational efficiency, and strengthen security across various areas.
