Documentation 🛛 Modules 💌 Account Settings 💌

# General

This article has been generated from the online version of the documentation and might be out of date. Please, make sure to always refer to the online version of the documentation for the up-to-date information.

Auto-generated at August 20, 2025

The **General** section of the Settings module allows specifying general information (name and description), company overview, and additional information (website, country, etc.). Furthermore, this section enables Connect users to upload media content, such as images or videos.

Use the provided interface to introduce your organization and specify other essential information or media that help your partners to get a clear picture of your business. The following guidelines demonstrate how to edit your account information, add an overview, upload your media content, and specify additional data.

## **General Information**

Click the Edit button next to the General Information to adjust the following account attributes:

- Name (required): Use this field to change your account name.
- Upload an image (optional): Provide an icon or a logo for your account.
- Short description (required): Specify your company description via this field.

First, select a *type* of your content. You can upload an image or add link to your Youtube or Vimeo video. In case the video content type is selected, put a link to your video to the *Video URL* field.

Next, upload your image or a thumbnail image for your video. Note that your uploaded image will be rendered with the 16:9 ratio.

Finally, once your video is successfully uploaded or your video attributes is specified, click the **Save** button to save your provided media content.
