# **Product to Hub Connections**

This article has been generated from the online version of the documentation and might be out of date. Please, make sure to always refer to the online version of the documentation for the up-to-date information.

Auto-generated at August 16, 2025

**Connection** is an entity that links a Vendor's product to a hub with the purpose of deploying this product on the corresponding commerce system and enabling its provisioning and fulfillment functions.

## Prerequisites

×

In order to be able to create a product connection, the following pre-conditions must be satisfied:

- A least one commerce system hub should be registered via the Hubs section of the Marketplace module;
- A signed distribution contract with a product vendor;
- Vendor should have a published Version of a product.
- There should be a Listing request for a vendor's product;
- The listing request should be sent to the Distributors for a review .

#### **Connection Creation**

It is important to note that your created connection objects **cannot** be removed and its properties **cannot** be modified. Follow the steps below to successfully create a connection object on the CloudBlue Connect platform:

Clo	oudBlue.	Products 🗸			HELP	Champions LLC Distributor • Adonis Creed	
Ē	3	Connections					
Tux	Titan 🗸	C REFRESH III COLUMNS

1. Navigate to the **Products** module.

×

- 2. Click on the product name that you want to create a connection for.
- 3. Switch to the **Connections** section via the left menu panel.
- 4. Click the Create Connection button.
- 5. Input the required connection parameters as follows:
  - Environment can be either Test or Production. This determines what kind of fulfillment requests will be created under this connection;
  - Choose Hub instance provides a list of hubs owned by the Distributors. to deploy the product to.

August 16, 2025

The system allows creating one connection for one hub, either *Test* or *Production*. Changing your selection at a later stage is **not possible**.

6. Click the **Create** button to complete the connection creation process.

As a result, your configured connection object should be displayed within the Connections list.

## **Connections List**

×

Once at least one connection is created, the Connection section displays a list of your created connection objects:

Clo	udBlue.	Products 🗸			? HELP		Champions LLC Distributor • Adonis Creed

The numbered points functions as below:

- []: The Create Connection button allows creating additional connections for the same product.
- []: The **Connection ID** column shows the Connect IDs of created connections. Click on this ID to access the **Connection** details screen.
- []: The Vendor column shows the account name and ID of the vendor who created and listed the product.
- []: The **Environment** column shows the environment type (*Test* or *Production*) configured during connection creation.
- []: The **Hub** column shows the name and ID of the hub to which the product is to be deployed.

### **Connection Details Screen**

The **Connection Details** screen can be accessed by clicking on a Connection ID from the Connection section. This screen provides multiple tabs that provides various information:
