Syndication Contracts

This article has been generated from the online version of the documentation and might be out of date. Please, make sure to always refer to the online version of the documentation for the up-to-date information.

Auto-generated at January 31, 2026

Syndication (or *syndicated*) contracts are required for Resellers to establish business collaboration with Distributors on the CloudBlue Connect platform. This allows Resellers to acquire a specific product that is provided via a Catalog.

Note that the system requires Distributors to create a syndication agreement that serves as the template for these contracts and define their Catalog of products. The syndication agreement should also represent a **sourcing agreement** and attached to the corresponding service agreement that defines terms of collaboration with Resellers. Otherwise, it is not possible to access or enroll syndication contracts.

Furthermore, in certain cases, Distributors can also enroll such contracts to collaborate with their business partner and represent Resellers of a specific product.

The following showcases how to enroll the syndication contract and describes the *Contract Details* interface on Connect.

Enrolling Syndication Contracts

Resellers can enroll syndicated contracts only in case Distributors provide the access to their *product catalog*. This catalog provides a list of products that are available for subsequent syndication operations and referral programs.

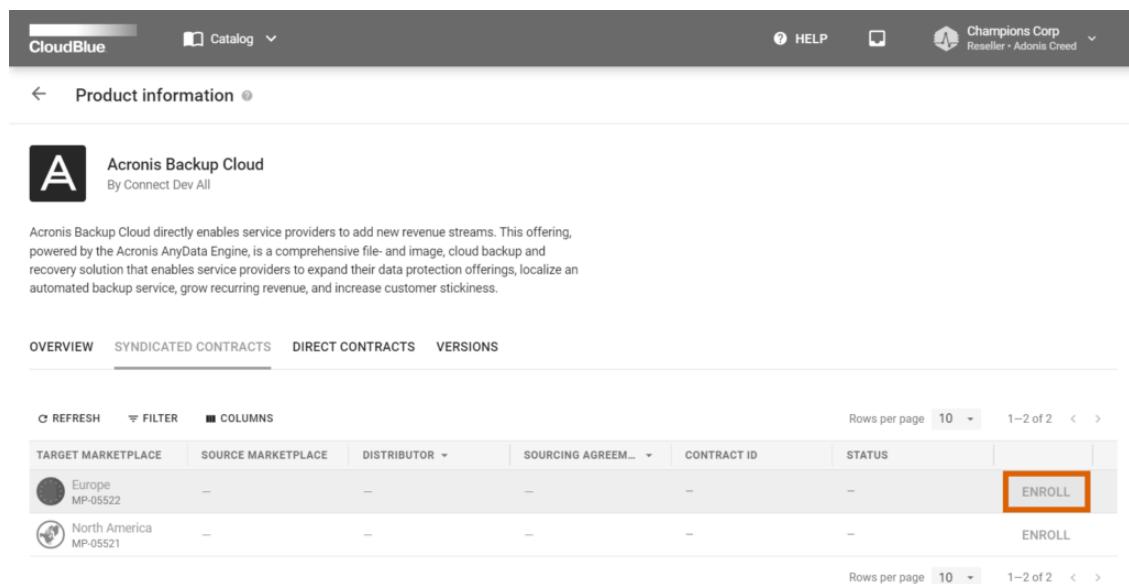

Access the Catalog module to select a required product that will be used for your new syndication contract.

The screenshot shows the CloudBlue Connect interface with the Catalog module selected. The top navigation bar includes the CloudBlue logo, a Catalog dropdown, a HELP button, and a user account for 'Champions Corp Reseller - Adonis Creed'. The main content area is titled 'Products' and features a search bar. Below the search bar, there are two product cards: 'Finance' (1 item) and 'Product Management' (1 item). The 'Finance' card displays 'Acronis Backup Cloud' with a description: 'Acronis Backup Cloud directly enables service providers to add new revenue...' and a large blue letter 'A'. The 'Product Management' card displays 'Dropbox Business' with a description: 'Dropbox Business is the secure file sharing and storage solution that employees love a...' and a small icon of a document with a grid pattern.

Next, navigate to the **Syndicated Contracts** tab and locate your marketplace from the provided list. Once your required marketplace is selected, click the **Enroll** button to launch the **Syndication contract enrollment** wizard.

Thereafter, follow the wizard steps to successfully create and enroll your contract:

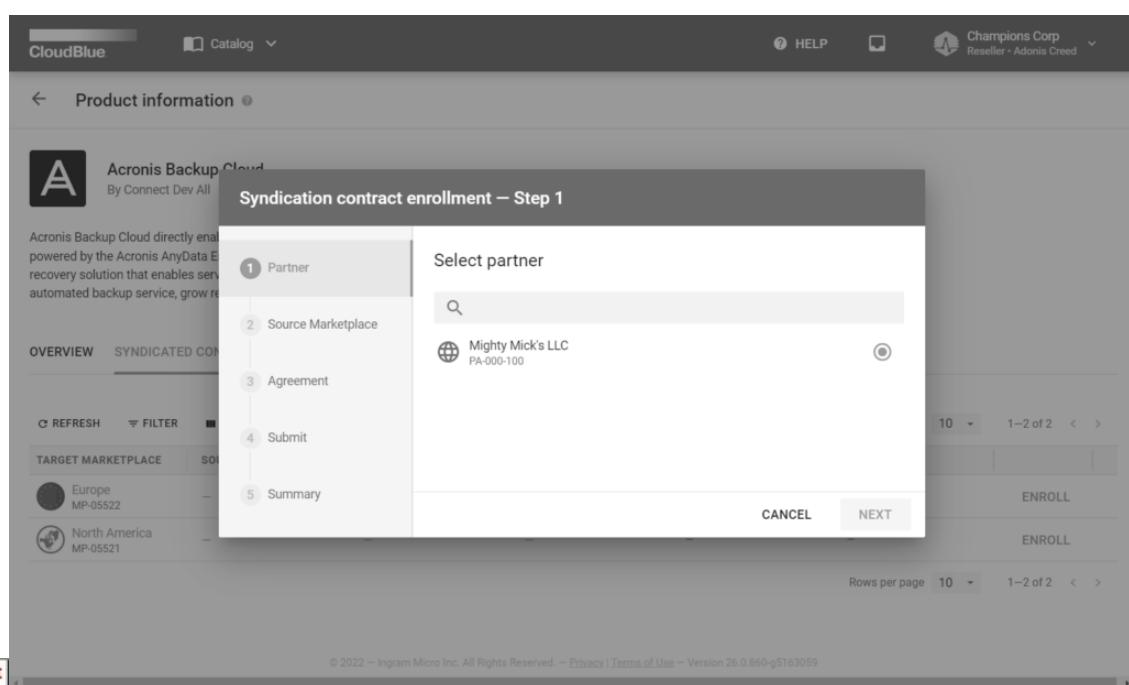

Acronis Backup Cloud directly enables service providers to add new revenue streams. This offering, powered by the Acronis AnyData Engine, is a comprehensive file- and image, cloud backup and recovery solution that enables service providers to expand their data protection offerings, localize an automated backup service, grow recurring revenue, and increase customer stickiness.

- Partner:** Make sure that correct business partner is selected.
- Source Marketplace:** Select a marketplace that provides your selected product.
- Agreement:** Review the provided agreement and check the *I have read and accepted the agreement* checkbox.
- Submit:** Provide additional information for your business partner and click *Submit*.

As a result, the system will provide a summary with your specified business partner, product, target marketplace and created

syndication contract.

Click the **Go to Details** button to access syndication contract or click **Close** to close the summary.

Syndication Contract Details

Click on your syndication contract ID from the **Contracts** tab of the **Partners** module.

CONTRACT	AGREEMENT ↑	ISSUER	SIGNEE	CREATE...	MARKETPLACE	STATUS
