Defining the pay-as-you-go items requires the enabled **Pay-as-you-go** setting in the Capabilities list. Creating a product listing with these items is necessary to initiate the Usage Flow. Furthermore, creating such items is essential for generating usage reports via the Usage module.

Define Your Items

Access the Pay As You Go tab from the **Items** section of your product profile page. Thereafter, click the **Create Item** button to define a new pay-as-you-go item.

The following wizard help users to successfully configure their *pay-as-you-go* items.

1. General

Specify the general item properties:

- **Name:** Enter your item name.
- **Manufacturer Part Number:** Type your item MPN.
- **Description:** Enter a short description of your item.

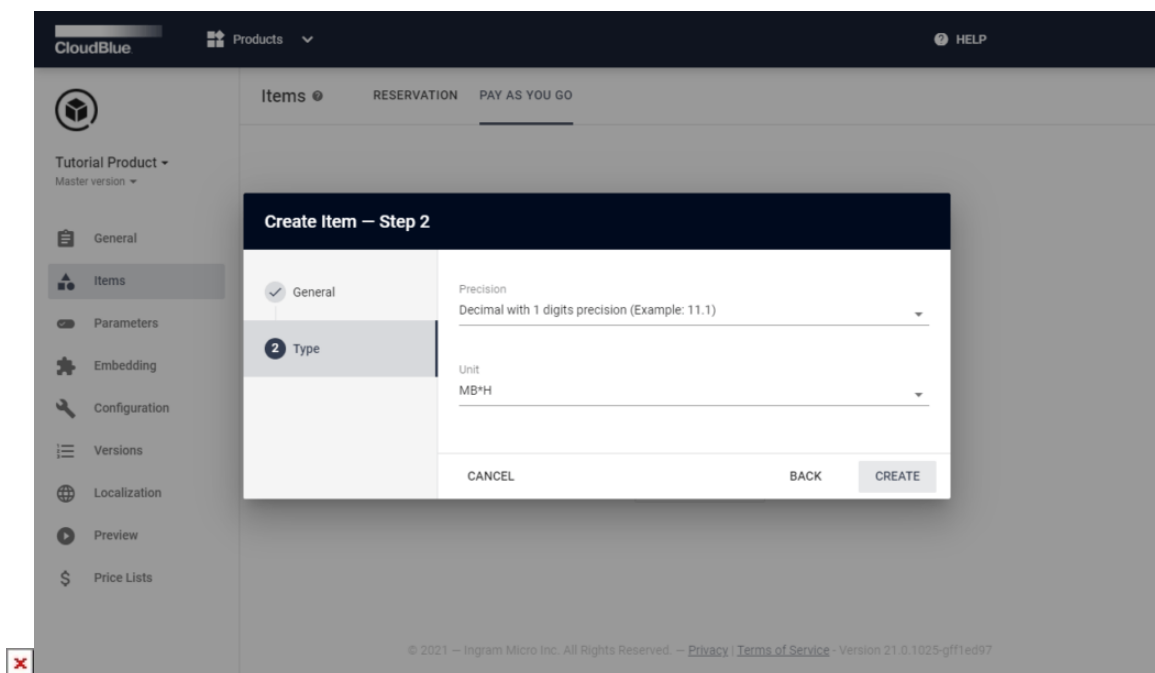

Click **Next** to continue.

2. Type

Fill out the following type form:

- **Precision:** Select data precision from the list. The system allows specifying decimals with 1, 2, 4, or 8 digit precision and selecting integers.
- **Unit:** Choose a unit type. Megabyte per hour, megahertz per hour, or unit per hour.

Save Your Items

Click the **Create** button to finalize your pay-as-you-go item creation.

As a result, your defined pay-as-you-go item will be available on the **Pay as You Go** items list.

The screenshot shows the CloudBlue interface for managing 'Pay as You Go' items. The top navigation bar includes 'CloudBlue', 'Products', 'HELP', and 'Front Street Inc Vendor - Robert Balboa'. The left sidebar lists navigation options: 'Tutorial Product', 'General', 'Items', 'Parameters', 'Embedding', 'Configuration', 'Versions', 'Localization', 'Preview', and 'Price Lists'. The main content area is titled 'Items' and has tabs for 'RESERVATION' and 'PAY AS YOU GO'. A '+ CREATE ITEM' button is visible. The table below shows one item:
