The following describes available sections within the **Subscriptions** module user interface. This module is used to access and create subscription objects, fulfillment requests, and billing requests.

Directory

The **Directory** tab stores a list with your generated subscription objects. Each subscription provides its own status that is regulated by fulfillment requests via the corresponding section.

Furthermore, this section contains your test or preview subscriptions. The system also allows generating subscriptions manually by clicking the *Create Subscription* button. Refer to Subscription Creation to learn more about the manual test subscription creation.

Subscription Details

Click on a subscription object identifier to access the *Subscription Details* screen. As the name implies, this screen provides insights of your selected object. Note that this screen is also used to manage your subscriptions and perform various operations, such as accessing suspending subscriptions, changing the quantity of purchased items, adjusting subscription data and so on.

Refer to Fulfillment Request to learn more about such request, their types, statuses, request details. To get information on how to process your fulfillment request on the Connect platform, please refer to the Requests Management documentation.

Billing

The **Billing** tab stores your billing request. Click on a [billing request ID](#) to access the **Billing request details** screen.

NAME	MANUFACTURER PART NUMBER	PERIOD	CYCLE	QUANTITY	UNIT
Prd 026 813 284 0001 PRD-026-813-284-0001	MPN-A	1 Month	1	66	Units

The Connect platform provides the following billing request types:

- **Vendor billing:** These requests are generally created by the Connect platform according to the provided scheduler. Vendors can also manually create billing requests for their preview/test subscriptions.
- **Provider billing:** Optional requests that are generated by integrated Distributor systems. Such requests are not available for Vendors.

Use the **Billing request details** screen to examine the billing period, information on purchased reservation/pay-as-you-go items, parameters data, request details, tier account data, billing attributes, and other general request information.
